Dear Hiring Manager :

I have been working in the field of graphic design, illustration and production management for the better part of the last decade with substantial experience freelancing with various clients; be they independent musicians, small businesses or various charitable organizations. With my education from SUNY College at Oneonta and my total 9 years professional experience, I have gained valuable knowledge and skill in creating and producing brochures, web sites, advertisements, posters, logos, books, product packaging, fine art, video editing, animation and web programming. I developed a proficiency with industry standard software including Photoshop, Illustrator, InDesign, Quark, Dreamweaver, Flash, Final Cut Pro, Premiere, Maya and several other packages relating to design, film, digital imaging and animation. I also have working knowledge in print production and have some experience with working on set in film and television.

I take a great deal of pride in my work and seek to present a focused, effective and eye-catching product that meets my client's needs and brings them a sense of pride of ownership. I am creative, reliable, diligent, and a hard-working designer who works well in various environments. Whether it be in either a collaborative or individual environment, I maintain my focus on the objective at hand, leading the group if it is required. I consider myself a team player and maintain myself to be open to any criticism or suggestion, willing to change what aspects do not mesh with the team as a whole. I only seek to be a reliable tool for those around me and to help others evolve and grow in their own right. The goal of my career is to enhance myself through education, experience, communication and creativity; sharing what I know with others by presenting a product which benefits my clients and coworkers or informs them through my own creative expression.

Thank you for your time and consideration. I hope we have the opportunity to discuss everything in person soon.

Sincerely,

Christopher M. Liatsis
